

# ADHESIVE INSECT KILLERS

The Mo-el range of adhesive insect killers from Pureheat offers the optimum in both electrical safety protection and advanced hygiene control. The range utilises high-power UV-A lamp technology, advanced materials and electrical components enabling many units to meet **IP65 waterproof rating** as well as assisting HACCP compliancy.

## Some of the product features of this range include:

- Shatterproof UV-A Lamps
- Unbreakable Lamp Housings
- Flexible Lamp Wattages with High Attraction to Insects
- Inox 304 Stainless Steel Construction on some Models
- Aromatic Adhesive Papers with Monitoring Grids
- 2 Year Warranty\*

## What is HACCP?

HACCP (Hazard Analysis and Critical Control Points) is a legislative decree for sanitary regulations regarding food-stuffs requiring permanent and efficient programs for insect and parasite control in the food industry. These programs apply to all food businesses which carry out production, preparation, processing, manufacture, packaging, storage, transport, distribution, sale, supply or provision to the consumer.

## Mo-Stick (available mid-2010)

### Model. 372

- Largest Attraction Area
- HACCP Monitoring Grid
- IP65 Waterproof Rating
- Shatterproof UV-A Lamps
- Wall Mount or Chain Suspension
- Easy Adhesive Paper Change

#### 372/397 Spares

000788	40W Shatterproof Lamp
001625	Pack of 10 Adhesive Paper

### Model. 397

**Effective Range (Rad.) 15 – 18 metres**

Specifications	
Dimensions (mm)	655 x 390 x 235 (H)
Weight	8.8kg
Voltage Rating	240v/50Hz
Power Consumption	95W
UV-A Lamps	2 x 40W Shatterproof
Lamp Life	2000 hr rated
Material	#372 Inox AISI 304 S/Steel #397 P/Coated Steel
Protection Level	IP65
